Newport Daily News.

TUESDAY, JULY 1, 1873.

We suppose the following is a hard affair to sell and give it up at sight: A servant draws off a gallon a day, for 20 days, from a cask containing 30 gallons of wine, always supplying the deficiency with a gallon of water and then to avoid detection, he draws off 20 gallons more, always supplying the deficiency with a gallon of wine. How much water still remains in the cask?

The following is a list of the nick-names of a number of the cities of the Union: New York, Gotham; Boston, the Modern Athens; Philadelphia, the Quaker City; Baltimore, the Monumental City; Cincinnati, the Queen City; New Orleans, the Crescent City; Washington, the City of Magnificent Distances; Chicago, the Garden City; Detroit, the City of Straits; Cleveland, the Forest City; Pittsburg, the Iron City; New Haven, the City of Elms; Indianapolis, the Railroad City; St. Louis, the City of Mounds; Rockford, the Gate City; Louisville, the Falls City; Nashville, the City of Rocks; Quincy, the Model City; Hannibal, the Bluff City; Alexandria, the Delta City; Newburyport, the Garden of Eden; Salem, the City of Peace.

Some six hundred old rusted helmets, long deposited in a crypt of Constantinople, were lately cut to show as old iron at 12 cents a pound. The buyer began to clean them and then discovered they were of fine steel, and adorned with Arabic inscriptions. He began selling them at 25 cents each, the price to and even $5, and at last an Armenian bought up all that were left at 20 francs 50 centimes each, and put them up to sale in the lottery. In old days when their value was found out, they would have been confiscated, but as it is, the government has bought them back at three pounds sterling each.

The Temperance speaker who strikes at the inbred practice of "treating" among drinkers, puts in a blow where it will do a great deal of good. Said one recently, "Now boys, if you want to be generous and treat each other, why not select some other place besides the liquor shop? Suppose as you go past the post office, you say, 'Jesse, my dear fellow, come in and take some lemonade.' These stamps will cost you no more than drinks all around. Or go to the baker's dealer's and say, 'Boys, come in and take a box of cellars.' Walk up to a grocer's, free and generous, and say, 'What kind of coffee will you have?' Why not treat to gingerbread by the pound as well as liquor by the glass? Or take your comrades to a cutler's and say 'Fill stand a good pocket knife all round.'"

An Oshkosh Wis., preacher and a lawyer were lately riding, several miles from town, when their horse ran away and they were forced to start home on foot. They were soon overtaken by a woman, driving a nice team, whose invitation to ride they were only too happy to accept. The young woman conducted herself modestly enough till they reached the main street of the town, but then, putting her foot upon the dasher with great abandon and lighting a cigar, she put the lash to the horse, and drove up and down the street at a leading pace, treating the crowd that came out to see the fun to a sight of a very gay-looking demi-monde and two respectable but horrified citizens. Four times she drove through the street, and since then the parson and lawyer have been busy in explaining how it came about.

Somewhere about the year 1818, says a Chicago paper, a taut topsail and topgallant-sail rigged vessel came upon the ledge, called the J. C. Dunn, built at Willow Point, on Lake Ontario, which had a short though eventful career. When starting out on her first voyage there were strange foreboding among her crew that something wrong was about to happen, and on reaching Lake Erie she was capsized by a squall and part of her crew drowned. Subsequently she was towed into Cleveland, where some bodies were found in the forecastle and buried. She was again fitted out, a new crew with difficulty put on board, and, to avoid further disaster the inevitable horseshoe was nailed to the mast. This, it seems, did not obviate her trouble, as it was claimed she was haunted during the watch hours of the night, and soon after became a total wreck near Rondeau, on Lake Erie.

Newport Daily News.

TUESDAY, JULY 1, 1873.

Our friends will confer a favor, by sending us facts of any matter of local interest which may come to their knowledge.

Correspondence concerning matters of public interest will be inserted, but we do not hold ourselves responsible for opinions expressed in such communications. All manuscript must be accompanied by the name and address of the writer.

The summer routes of the News are now carried. The paper is delivered out as far as Gibbs avenue and south as far as Walker street. The publishers will be pleased to serve all within the above limits.

After a considerable rough experience the fact that it is easier to elect a true and acknowledged democrat than it is to play the split party game with success, is beginning to receive a long deserved acknowledgement. The following is taken from an exchange: It is an easier labor to elect an able, firm, honest, patriotic Democrat in the Democratic party to the first office in the state or nation than it is to elect a Republican "come-outer" or reformer. A Democrat pure and simple will excite less hostility, and the victory of reform will be more completely achieved under his lead than under any other, according to the Milwaukee News.

The managers of the Worcester & Nashua Railroad have just concluded an arrangement with the Norwich & Worcester, Providence & Worcester and other roads affording the most direct route by which trains may be run from New London and Providence to the White Mountains. This arrangement will be a very pleasant one for people journeying to that section of the country, but there are very good grounds for apprehending that the experiment will prove a greater blessing to the White Mountain climber—whom we don't envy—than to the projectors of this scheme. The White Mountain region is not yet popular enough to draw more than one class of patronage and that is not the class to be picked up largely from the starting points mentioned.

The Board of Aldermen of the city of Boston have, at last, begun the work of reorganizing the fire department in a manner indicating something like a due appreciation of the very pressing needs of the situation. "Orders" have been passed this week authorizing the purchase of four first-class steam fire engines, five horse hose carriages, and one hook and ladder truck. The Chief Engineer has been instructed by a similar process to substitute the horse hose carriages for the hand tenders at present in use. The carriages, moreover, are to be so construed that five men can ride on them to fires. The Mayor in his inaugural address, urged with a zealous earnestness, that this department be made as effective as possible. The position taken by the New York and other underwriters in regard to taking Boston risks, drew forth the following from the joint standing committee of Boston's city government: "If the insurance companies compel us, and take as first class risks, high buildings surmounted by wooden roofs, they cannot expect the city to insure them against loss under their policies.

PURIFICATION BY WATER.

Street sprinkling is not generally considered as accomplishing but one good, viz: that for which it is intended. Such, however, is a very great miscalculation of its purifying effects. There is and in existence a more thorough or simple means of purifying the streets of a city than by continuous and plentiful sprinkling. Instead of sprinkling, however, could a system of thorough drenching be substituted, there would be but slight danger of such epidemics as now occur, where the watering process was regularly performed. There is no lack of water and the means for supplying our be-gummed streets with an abundance of it, is very simple and the city is well able to do it.

By proper drenching, every particle of filth and dirt could be kept from our thoroughfares and we could thus avoid the gases which continually arise from the organic refuse lying about the streets and in the gutters. *Mere* sprinkling is quite another thing, though it is a help in the right direction. There are those who claim that the small amount of water used upon refuse of various kinds, by means of sprinklers is not a sanitary benefit, but if water possesses the purifying qualities it is generally supposed to, there seems to be no doubt of its beneficial effects, even in proportion as it may be used. It is not alone in literally sweeping off organic matter in the sewers that benefits the air, but it is in the effect of water to salt, due the affinity arising from this matter, which it certainly does to a great extent.

While it is true that heat and moisture are the necessary conditions for the speedy production of decomposition, it is not proven by any means that this is not the better means of treating such matter. In the first place, the matter left to itself will emit the same amount of gas as if decomposition was hastened, and it will extend over a much longer period; of course the stench will not be so intense as it is at times during the process of forcing decomposition, namely, at times when the matter is issuing from its state of dampness; but while the non conducting influence of oxygen is upon it there will be no perceptible injurious gases arising although the work of decomposition is not lessened.

STATE MISCELLANY.

Ellen Lawler, of Westerly, an unmarried Irish woman of about forty-five years of age, employed in the capacity of a servant, at Weeden H. Berry's residence, committed suicide about 4 o'clock, Friday afternoon, by hanging herself in the barn, by means of a hay rope suspended to a beam; to make the affair doubly sure she doubled the rope. The woman, it is said, was suffering from the horrors of rum recovering from a debauch. She had led an intemperate life, attempting once before to end her life in Norwich jail. The remains of deceased were interred in River Bend Cemetery, Saturday morning.

The missing diary and pocket book of George H. Paver, who was murdered last fall was found a fortnight since in Providence under the rafters of a building which was formerly occupied by the murdered man. The last entries in the diary are under date of August 30th and 31st.

Mr. A. D. McClellan of Brown university will not enter the single scull race at the time of the Springfield regatta, as before stated. He will be stroke this year but the freshman ball nine takes precedence in the tournament.

Members of the late Fourteenth Rhode Island Heavy Artillery are to have a meeting at the rooms of Ives Post, No 62 Weybosset street, Providence, on Wednesday evening, for the purpose of organizing a veteran association, and to make arrangements for participating in the excursion of veterans on the Fourth of July.

The [illegible] about thirty years of age, [illegible] and light [illegible] mustache [illegible] it's said from Cantonsville [illegible] in his pocket [illegible] working [illegible] was found in the Buttermilk channel, off Long Island, N. Y., Friday morning, with a bullet hole in his right eye. It is supposed that he committed suicide, as the last entry made upon the book while residing here showed that he had been out of employment for some time before leaving home.

NEW ENGLAND NOTES.

The committee on federal relations of the Connecticut House have reported resolutions denouncing and repudiating the salary grab and demanding its repeal.

There were great rejoicings in New Bedford, Friday evening, on the appearance of the first locomotive over the new railroad.

A boy named Carberry, nine years of age, was drowned at Log Hill cove, near Dover, Vt., on Friday afternoon, while bathing.

The Eastern railroad engineers have nearly completed a survey of their proposed new road from Kittery to Biddeford, which considerably shortens the distance between these points.

The descendants of Gen. John Stark, the revolutionary hero, propose to enlarge the cemetery in New Hampshire in which his body rests, and to convey it to the State on condition that it be kept forever in good condition.

James H. Allen, the missing teller of the Revere Bank, Boston, who disappeared about a month ago and returned on Friday last and restored the funds he carried away, was arrested by the police as soon as he ventured home. He was examined before the Municipal Court on Saturday, and President Walley of the bank appeared, and stated that Allen had returned the identical money and other property carried away by him, and that he seemed to have acted entirely on impulse and to have repented at once. Allen also made a statement, and was then discharged.

The Hon. William Whiting, representative in Congress from the third district, died very suddenly at his residence on Montfort avenue, Roxbury, Sunday afternoon. He was confined to his house a week ago by an affection of the kidney, followed by inflammation of the bowels; but he had obtained much relief and was thought out of danger. Late in the afternoon, yesterday, while sitting up in bed, he was seized with sharp pain and convulsions, for which all medical relief proved unavailing, and he died in a few minutes. He was sixty years.

The fifty-fourth anniversary of the William street Baptist Sabbath School, New Bedford, was held last evening, in the audience room of the church.

The little fellow played several pieces for the great violinist, afterward repeated a piece after Herr Wieniawski had played it. Herr Wieniawski commenced to give the boy a lesson of one hour's duration every day during his stay in the city, and take him to Europe and place him in the Musical Conservatory at Vienna, under his own tuition free of charge, until he graduates.

The Honolulu Gazette of a late date says the sale of opium has seldom drawn a crowd to the auction room. After disposing of some leases of real estate, one opium license was put up, starting at $2000, and rapidly advanced to $12,000, at which figure it was knocked down to Leonkong, the same party who had it last year. The second license was then offered, which was started at $2000, and advanced to $16,000, at which figure it was knocked down to Achwan, making $28,000 to be paid for the privilege of drugging the people of Honolulu with opium for one year.

Saturday evening the unusual display of the season will be given at Crescent Beach, West Point Hotel, which is now comfortably filled with lounging metropolitan families. The Mary Powell will doubtless take a large crowd to Cozzens' on Saturday.

A meeting of the Newport Artillery Veteran Association was held last evening at the Armory Hall. Not a sufficient number were present to take any decided action with reference to the new uniform.

The Boston Express line via the Long Island Railroad, the Sound and Newport will be opened today. It is to make the trip from Hunter's Point to Greenport in three hours, and to Newport in seven hours.

Engine Co No. 1, will hold a special meeting Wednesday evening next for the purpose of nominating an engineer and fireman for the steamer. The Board of Firewards have given each company the privilege of choosing its officers to the above extent.

The concert given last evening at St. Mary's school, by the young ladies of that institution under the auspices of their patroness, was witnessed by a very respectable audience, who gave evidence of their satisfaction by numerous outbursts of applause. The affair was nicely conducted and proved a success.

The Metropolis having completed her repairs, cleaned for New York yesterday afternoon. She was gaily decorated with flags and presented a very fine appearance. A few more improvements are to be made upon her arrival at New York.

Stalker's New England circus arrived in the city and four thousand children are making the streets hideous with their rejoicings. Stalker has the reputation of furnishing the best class of equestrian entertainment.

An Irishman named Flanagan was caught last night stealing flowers from the lot of Mr. George Knoll in the cemetery. Mr. Knoll has been annoyed greatly by repeated losses of flowers from the spot and at best he determined to set a watch, with results as above. We understand Flanagan will be prosecuted and, we hope, will meet his deserts as a warning to others.

The [illegible] game of base ball that was announced to take place Saturday between the Phil. Sheridans of Fall Adams and the Resolutes of this city was forfeited by the non appearance of the latter. The former were on the grounds at the appointed time and chose an umpire who called play, and as there was no one to respond, it was called in favor of the Phil Sheridans.

NO. SEVEN.

The New Jeffers.

The parade of Engine Co No. 7 with its new steamer, this morning, made a very fine appearance and was duly recognized by the crowd of spectators as the *Lion* of the department. Of course this encouraging title is due to the newest company, or the company receiving the latest acquisition, as has been the fortune of Co. [illegible]

The appearance of the "Jeffers" is fully satisfactory, at least to the eye that admires for beauty of workmanship and high polish. Preceding the company was the Newport Brass Band, serving out to the anxious throngs excellent music while dodging hacks, pedestrians, dogs and expectant urchins with marvellous composure and patience. In advance of the band was a posse of police officers the appearance of which was in every way suitable to the occasion.

Following the company came the Fire Wardens in their luxurious conveyances, watching the doings of their less fortunate comrades and leaving in spectators with an uncomfortable feeling that we wondered why we were not there by invitation.

The procession took its way down Thames street, passing in review before all the engine houses of the department, and finally returning to the Hercules. The steamer bore the following motto upon a piece of canvass suspended above her: "The Jeffers First and Foremost and on the other side, "Jeffers machine as good as ever." The Jeffers is a third class machine and is drawn by four horses.

The company is extremely pleased with the new machine and evidently intend that she shall do good service, when the time comes. In the way of celebrations, the company gives a supper at the Academy of Music this evening, the hour for partaking thereof being 9 o'clock. Guests are invited to join the company at the engine house at the Academy as they wish. The final act of the engine took place on the Parade at one o'clock, after which she was formally turned over to Captain Burdick and the company.

SUNDAYINGS.

Anthony'ville, Long Island, is a pretty little retreat, with attractive surroundings.

There are many visitors from the city at Kingston, N. Y., and the neighboring towns.

The principal summer resort of Georgia is at the White Sulphur Springs of the Merriwether county.

The number of summer hotels and boarding houses in the New England and Middle States is fixed at ten thousand.

Carriages can be taken within eighty rods of the summit of the Kearsarge Mountain, New Hampshire, after the new road is completed.

A recent journal writing from Cape May says: "A large part of the best element of society in Philadelphia and Baltimore will be quartered here this summer." Nearly all the hotels are open and most of the cottages are occupied.

The Schoharie Valley, situated about thirty miles from Albany, is one of the most delightful of the New York state. It extends from Schoharie up to the Catskill Mountains and is about forty miles in length and from two to four miles in width.

"The hens of Long Branch" says an exchange, "have no shelter this season, their coops having all been moved down to the beach and called bathing houses." A most foul proceeding.

LITERARY NOTICES.

The "AMERICAN PROTESTANT," for July, is now ready. "Under the Ban," from the French; "Buried Love," a discourse on Decoration Day, before the Grand Army of the Republic; "Growth of Presbyterianism;" "The Modiaes of Rome;" "Revolutionary Times;" "Summer Eves;" "St. Patrick," who and what he was; "Origin of Scandals;" "Our Boys and Girls;" "College Incident, Bible for Life;" "Porch and Altar;" "Peeps at the Poets;" and "At Home and Abroad," are some of the readable departments and articles.

FALL RIVER.

The *News* has the following interesting episode: "In the Police Court this morning a complaint for assault was on trial and while the defendant was testifying, Mr. Walter Scott of the Border City *Herald* came into the court room and was handed by Mr. Lapham a file of manuscript for the paper, which the latter had been preparing. Shortly afterwards Mr. Blaisdell noticed that the Justice was near at work on manuscript and stopping the case adjourned entered a credit upon the court, as it has not received for some time, although it is no stranger to such proceedings.

Mr. Blaisdell said he was speaking for the entire bar when he pronounced such conduct on the part of the court a gross outrage on justice and insult to the bar. The Court was not hydra-headed and could not at the same time write editorials for a newspaper and be acting as judge in an important case. Mr. Blaisdell spoke for some minutes in this strain and administered such a scathing rebuke to the venerable justice, as he will not soon forget. We learn that Mr. Blaisdell has the support of all lawyers who practice in the Police Court, in the step he took this morning.

A runaway occurred in this city on Saturday. A buggy was wrecked.

Nearly a thousand people attended the one time at the grove yesterday. Rev. Mr. Jones will continue the meetings.

Oats have fallen home 500 bushels till several feet in the granary of Charles Cushy on Sunday. The mouse was active.

In the North District Saturday afternoon, about half past three, fire was discovered in the shed house of Messrs H. Brightman & Son and before the arrival of the steamer the entire structure and contents became a mass of smoking ruins. Through the efforts of the firemen, the new barn and store house were saved, although at one time it was in imminent danger. Loss about $7000. As no fire has been used in the building since last winter, it was doubtless the work of an incendiary.

GENERAL NEWS.

The towns of Michigami and Spurr mine have been entirely destroyed by fire according to the latest reports. The towns destroyed were mining settlements along the line of Marquette, Houghton and Ontonagon Railroad. They were built in the midst of the woods, and consisted chiefly of very plain machinery houses, occupied by miners. There were a number of stores, &c., and the population of each village was about 500.

Secretary Robeson has been interviewed at New York by a *Herald* reporter and gives very satisfactory statements as to the plan adopted for the disinterment of the remaining crew of the Polaris.

The corner stone of the new Church of the Puritans, One Hundred and Thirtieth street New York, was laid, yesterday afternoon, with impressive ceremonies.

"Ten cents advance" is the motto of the coal combination, and what is more, it is quite certain they will obtain all they ask for. The movement since April in this direction has been steady, and the market is under the perfect control of the operators.

The Brooklyn Yacht Club proposes to visit Rocky Point on Saturday, July twenty sixth, and on the following Monday to join in a grand regatta for schooners and first class sloops, the course to be from Brenton's Reef Lightship around the buoy at Black Island and return.

Statements having been recently published that the Credit Mobilier suit is likely to result in failure, owing to an alleged movement to unite all the forces of the Union Pacific Railroad Company against the government, and to other causes, an inquiry today at the Department of Justice leads to a different conclusion. The Attorney-General denies that the name of Horace P. Clark was cited in the bill in equity with the understanding that both he and the company would remain neutral in the suit. The death of Mr. Clark will have no other effect than delay until the name of the new President of the Company can be inserted in the place of that of Mr. Clark. The Attorney-General sees no reason whatever to change his belief that the proceedings instituted by the Government will be successful. [World

The mystery which has so long surrounded the murder of Gilbert R. Robinson, the young jeweler of Rye Neck, is gradually disappearing. New facts connecting Peter Terrill, recently arrested and now in the county jail, with the commission of the crime, are almost daily coming to light.

The receipts of fractional currency for the week ending today, amounted to $715,000; shipments $1,497,000; shipments of notes $1,000,000; amount held by the Treasury necessarily for national bank circulation, $290,315,550; and for public deposits $15,560,000. Internal revenue receipts today $310,985; for the month $8,165,228; for the fiscal year to date $111,172,559; national bank circulation $355,011,682; national gold bank circulation $1,815,000.

The Treasury Department has prepared a comparative statement of the appropriations made by the last Congress for the fiscal year ending 1873, and the fiscal year ending 1874; there is an increase of $18,000,000 for the latter over the former, the entire amount of the appropriations being $172,290,700; the expenditure for the Executive Department was increased to over three millions; the Military Establishment $1,000,000; the Naval Establishment $4,000,000, Public Works $6,000,000; and the Legislative Department, a million and a third.

A DIFFERRED DUEL.

An incident in the life of Abraham Lincoln.

The *Globe* precedes this incident with the apt allusion:

Strangely enough, the murder of Mansfield T. Walworth by his son recalls the story of Abraham Lincoln's duel. The mother of Frank Walworth is the daughter of Colonel John J. Hardin, who saved Mr. Lincoln from the remorse which would have overshadowed his life if he had killed General Shields. Colonel Hardin was a prominent Whig politician and was esteemed "the bravest man in Illinois." He was killed at the battle of Buena Vista, and in his death fairly earned the distinction which his admiring friends had given him while living. Mr. Lincoln was his intimate friend, and both men were gifted with a large sense of humor which they turned to good account. The hostile meeting between Mr. Lincoln and Gen. Shields was brought about in this way:

A witty young lady wrote a communication for one of the Springfield papers, in which there were several passages which the General was placed to consider as personally offensive. He forthwith went to the newspaper office and demanded the name of the correspondent, and this being refused he gave the editor five days in which to make up his mind, either to refer him to the writer or to take a whipping himself. He did not like to be guilty of the very ungallant act of betraying his lady correspondent, and neither did he want to have a fight with Gen. Shields who was a much stronger man. In this dilemma he came to Mr. Lincoln and told him of his trouble. The lawyer took the matter into consideration, but he could think of no strategem for the relief of his friend. At last he said to him: "When Shields comes around with his club, tell him Abe Lincoln wrote the letter." The editor acted upon the suggestion, and when the irate politician appeared, ready to carry his threat into execution, he was politely requested to call on Abraham Lincoln for satisfaction. This put a new face on the matter. General Shields knew better than to come fooling about Abraham Lincoln with his cane. He was at that time a great, long armed, muscular fellow, good natured, but resolute, and, when the occasion demanded, he could deal such blows with his fists as made his antagonists think rail splitting was his pastime.

But after all his threatening bad blester, Gen. Shields could not back out without subjecting himself to the ridicule of his townsmen, so he concluded to challenge Mr. Lincoln. The challenge was accepted but to the great dismay of the challenger, Abraham named long swords as the weapons. He had no skill in the use of the sword, but with his tremendous reach of the arm and great muscular strength he would have cut off Gen. Shields' head before he got hims it into position for one of his scientific thrusts. The time and place of meeting were agreed upon. Mr. Lincoln went to the ground early with his second, and there being some hitches in the plan selected for the fight, he set to work to clear them away with a hatchet. While he was engaged at this, other gentlemen came on the field and they were so struck with the ludicrous scene that they could not refrain from laughter.

Just then Col. Hardin appeared, and appreciating the humorous situation, he appealed to both parties and to make fools of themselves with such effect that they went home without fighting. Mr. Lincoln often said afterward that his participation in this affair was the nearest act of his life. Col. Hardin, although a peacemaker on this occasion, was a man of great courage and most chivalrous bearing. At the breaking out of the Mexican war he was put in command of the First Illinois Volunteers, and died on the field of Buena Vista, as already stated. [Baltimore American.

A worthy old clergyman in a neighboring town is very absent minded, and has a short memory. It is a common habit with him in the sermon to forget something, and then, after sitting down, to rise up again, and begin his supplementary remarks with the expression, "By the way." A few Sundays ago he got half way through a prayer, when he hesitated, forgot what he was about, and sat down abruptly without closing. In a moment or two he rose, and, pointing his forefinger at the amazed congregation, he said, "Oh! by the way. Amen!"

Two policemen in Little Rock, Ark., put out in a boat and rescued a young man from drowning one afternoon last week, and then locked him before a court and had him fined for bathing in the river before sunset.

Mental Depression.

Mental depression is the source of the most acute misery, and, of all the ills which flesh is heir to, it is the one that excites the least sympathy. It is a subject of frequent jests, not to call it by more derisive terms; but all the wit in creation failed to kill, or even to frighten the pallid out of the belief that his life was a burden, for it is a real disorder, the most frightful of which are colic and fear, anxiety and gloom. The best and sure cure, as well as the mildest remedy, often manifest symptoms of derangement. Noises as of falling water, and ringing in the ears are complained of, while black specks and fiery sparks frequently fill before the vision. Admonitions like these should not be disregarded, as they may, if neglected, terminate in insanity. The seat of the disease is in the brain and nervous system, and to control the malady it is necessary to use a powerful tonic and alterative, which will control and bring these organs without inflaming the brain. This is the secret of the success of Hostetter's Stomach Bitters in cases of this kind, for which it is the only and sure remedy the best of physicians. In fact it is the only pure and reliable tonic stimulant in use. Many imitations, purporting to be tonics, are palmed upon unwary people, as well as the mental faculties, often manifest symptoms of derangement. The fact that Messrs. Colgate & Co., have ordered largely into the manufacture of perfumes will be highly acceptable to the public, for none of this firm allow being a sufficient guarantee of the reliability and perfection of the articles manufactured.

A Clergyman writing to a friend says, "My voyage to Europe is indefinitely postponed. I have discovered the fountain of health on this side of the Atlantic. Three bottles of Peruvian Syrup have restored me from the point of the dead Dyspeptic." Dyspeptics should drink from this fountain.

For Loss of Appetite, Dyspepsia, Indigestion, Depression of Spirits and General Debility, in their various forms, Parker's Tonic is an unfailing Remedy. It is made by Curtis & Parker, Boston, and sold by all druggists. Is the best tonic. As a stimulant it is far preferable to any of the liquor tonics or other bitters. It has no equal. It takes distinct rank by itself. Invaluable for all kinds of weakness. Try it. Price $1.

Newport Daily News.

TUESDAY, JULY 1, 1873.

GENERAL NEWS.

THIS MORNING'S DESPATCHES.

Saturday afternoon, John Stanton, a German peddler, stopped at the house of James Snow, in Walton, Vt., and asked Mrs. Snow if she wished to purchase any goods. Mrs. Snow replied, she had no money. Pinkerton says, "Guess you have money, as farmers generally have plenty of it." Mr. Snow, who was in the house drunk, asked what he knew about it, and ordered him to leave. Stanton said to Snow: "Guess you will not hurt anybody," and got out to his wagon, when Snow took a small fowling piece and deliberately shot him while sitting in the wagon. Stanton fell upon the seat of the wagon and died immediately. Snow then pulled the body out upon the ground, and sent his wife to the neighbors to tell them what he had done. Snow is under arrest.

A despatch from Saranac City states that citizens from Rawlins went to one of the Ute camps, when a quarrel ensued in which the citizens killed from twelve to twelve Indians, took into possession a lot of blankets, saddles, &c., and returned to Rawlins. The Indians are very much excited, and a general Ute war is feared in consequence, which will seriously interfere with the timber, mining and other interests throughout the region.

A fire this morning destroyed D. C. Barker's Co.'s tobacco factory, at Detroit. The loss on machinery and stock is $75,000 to $80,000, covered by insurance. The loss on the building which belongs to the Duchoiche estate is $12,000, also insured.

The mail from Lerdo brings the news that a large body of Kickapoo Indians are encamped on the Mexican side of the Rio Grande, a few miles from there. It is supposed that they are waiting for the river to fall to make a raid on that place. Preparations were in progress for a vigorous defence.

The Mexican Border Commission in their report say the actual losses proved are placed by them at $11,000,000 or $748,396,225 including consequential damages, but while it distinctly understood they do not recommend the payment of any such sum of consequential damages, and upon a cross examination of the claimants, might be able to reduce the aggregate of the actual losses.

The violence of the earthquake yesterday morning was concentrated in the country north of Venice, where its effects were terrible, both in loss of life and ruin of property. At Belluno, four persons were killed and many injured. At Pieved, Alpago, several were injured; at Caraigo, three; at Pura, eleven; at Vissone, two and at Cervesano, one. Several churches are in ruins, many were badly shattered and hundreds of houses have been levelled with the ground. The inhabitants have not yet recovered from their terror and thousands are encamped in the fields, but there has been no recurrence of the shock.

The Attorney General has not yet prepared his opinion on the question submitted to him by Secretary Belknap as to the responsibility of Gen. Howard, Commissioner of the Freedmen's Bureau. The question submitted by Secretary Belknap is whether the Commissioner of the Freedmen's Bureau is liable for the acts of his subordinates.

From New York.

The first of the games in the billiard tournament was played yesterday afternoon, resulting as follows: Garnier, 200; Dion, 207.

Time of game, 1 hour, 45 minutes. The first game in the evening was between Garnier and Cyrille Dion. The score stood: Garnier, 200; Dion, 118. Garnier therefore becomes the champion.

On the opening of the Walworth trial yesterday afternoon, Mrs. Walworth continued her testimony showing her late husband's mind had been affected since 1865.

Samuel Jones, a farmer at South Oyster Bay, Long Island, was murdered Friday night last, his body thrown into a well, and the house robbed.

The *Post* says: "As a proper sequel to the story that the committee from Mr. Beecher's church had taken up the outrageous scandal against him which has been floating about for months past, there appears the following letter in the Brooklyn *Eagle* from Mr. Beecher himself. Hitherto he has kept silent, and so long as he did so it was most fit that his friends should give no currency to the vile stories that have been put in circulation about him. As he chooses at last to speak, he is entitled to a hearing everywhere. He says:

To the Editor of the Brooklyn Eagle:

In a long and active life in Brooklyn, it has rarely happened that the *Eagle* and myself have been in accord on questions of common concern to our fellow citizens. I am for this reason impelled to acknowledge the unsolicited confidence and regard of which the columns of the *Eagle* of late bear testimony. I have just returned to the city and learn that application has been made to Mrs. Victoria Woodhull for letters of mine supposed to contain information respecting certain infamous stories against me. I have no objection to have the *Eagle* state in any way it chooses it that Mrs. Woodhull or any other person or persons who may have letters of mine in their possession, have my cordial consent to publish them. In this connection at this time, I will only add, that the stories and rumors which have for some time past been circulated against me, are grossly untrue, and I stamp them, in general and in particular, as utterly false.

Respectfully,

(Signed) HENRY WARD BEECHER.

The body of the man found, Saturday, on the south beach, Staten Island, was recognized as that of Col. Lionel Percy Sidney, late of the British army, who had been stopping at a hotel in Bleecker street. He left there on the 21st inst., to draw a sum from his bankers, and had not been seen since. As no money was found on his person, foul play is suspected.

Miscellaneous.

At Des Moines, Iowa, Saturday night, Nelson Yard shot and instantly killed Jackson Jones, who, he alleges, had outraged his wife. Mrs. Yard also fired a shot at Jones with a revolver, but missed. Yard and his wife surrendered voluntarily to the authorities, and are both in jail.

Half of the business portion of Thomasville, Ga., has been destroyed by fire. The principal sufferers are Hardaway, McKinnon, Johnston & Strimer, the Western Union Telegraph office, W. E. Davies & Co., J. T. Kattaunn, N. Hirt, A. & R. Smith, Hunt & Parlier, J. Foss, S. J. Cassels, B. Goldberg, Redding & Outing, Hammond & Davis, Hodge Alexander and Dr. D. S. Brandon. Loss over $150,000.

An explosion of powder occurred at the east end of the Hoosac tunnel at midnight Sunday, killing four laborers and wounding two others, one fatally. An explosion with even more disastrous results is reported at Virginia City, Nevada, where two buildings were demolished and ten or twelve persons killed.

At base ball yesterday the Bostons defeated the Mutuals in this city, 17 to 6, and the Atlantics were beaten by the Philadelphians at Philadelphia, 27 to 17.

The three ball billiard tournament was finished yesterday, when Garnier, C. Dion and Eddy played off the ties. The former won the first prize and the championship, and Dion the second prize.

Frank Haverstraw, a German barber, thirty years old, residing at No. 210 East Thirty-fourth street, New York, died in Bellevue Hospital early yesterday morning, from injuries received during a fight in the liquor store corner of First-avenue and Six-teenth street, on the night of the 23d inst.

Chicago street car drivers have been receiving no wages one time in six, but they have recently been cut down to one fare in seven, and many of them are dissatisfied.

The Boston *Journal's* Washington special says Senator Sumner's health is much improved within six months. He uses but little medicine and suffers no longer from pains in the head and spine. He sleeps well and can write, read and walk without fatigue. He will soon leave for Nahant. Despatches also add that a very important statement will soon be published to show that Schuyler Colfax did not receive the proceeds of the famous $1,200 check, payable to "S. C. or bearer."

Probabilities for New England: are fresh and brisk southwest winds, cloudy weather and rain.

About 10 o'clock, yesterday, O. D. Benjamin, of Cleveland, O., with G. R. Benjamin and Geo. Briley started in a small sail boat for Rocky river, six miles from this city on the lake shore. Nothing has been seen of them since. The weather has been very squally and it is probable that they are drowned.

A violent thunder storm, last night, flooded the Vienna exhibition grounds and did much injury. The American annex and the German gallery were badly damaged. The roof of the Chicago restaurant was driven in, and the building and contents ruined.

Sunday afternoon a body of masked men seized the Sheriff and guards of Salem jail, broke open a cell and lynched Dolan Heffernan, the murderer of Halstial, took him to a place outside the town and hung him. They afterwards escaped unrecognized.

A rumor is current here that Col. R. B. Black, Jr., chief editor of the *Pinkyan*, and ex-Judge Cooley have gone to Mississippi City, to fight a duel. Cooley was one of the counsel for the plaintiff at the recent suit of Hawkins vs. the *Pinkyan* for libel.

Cincinnati despatches report 13 cases of cholera and Nashville 8.

The steamer Constitution, from Palermo, is still held in quarantine at San Francisco. It was reported there was yellow fever on board, and no communication with the vessel is allowed.

Janesville, Wis., has had a shower of gum-camphor, and it is now a drug in the market.

The Shah is so dainty in his diet that nothing but gold-fish and silver eels are good enough for him.

A Quaker City paper says that no people in the world have greater powers of endurance than the Philadelphians. They are obliged to have.

The graduating class of Yale contains sixty-eight Free-traders to twelve Protectionists, according to the New York World.

The Allen county, O., Democrats have resolved that both parties are inextricably corrupt, and they therefore call a meeting of men of both parties to organize something new and better.

A proposed tunnel under the Rocky Mountains is receiving considerable notice in the West. It is to pass under James' Peak, be twelve miles long, and be cut at the rate of sixty feet a day. Its objects are to afford the means of working the discovered mines rapidly and cheaply, to discover and open new veins, and to afford a track for a railway.

Real estate has risen in Virginia. A negro there who had a $15 cabin destroyed during the war has presented a claim for $21,000.

A Nevada paper speaks of a march in one of the townships of that territory that contains one thousand acres of borax land, by actual survey, equal to two hundred thousand tons, or seventy-five thousand tons of net borax. There are other marshes in the territory fully as prolific of this chemical as the one referred to. During the month of May the shipments of borax from Columbus, a village of five hundred inhabitants, were eight hundred tons.

The great Yellowstone expedition, the engineering party of which left Fort Lincoln a few days ago, to take up its general route from Heart river, is estimated as containing 5000 men. The object of this imposing caravan is to protect the Northern Pacific Railroad Company's engineers in running the lines through a country infested with red skins. From the Missouri westward to the mountains no part of the line has been definitely located, although several unsuccessful attempts have been made. A force of four men, under Gen. Stanley, failed to accomplish that object last year.

Two young men in Burlington, Iowa, quarreled about a young lady, and fought it out with pistols. They did not succeed in killing each other, but one of them sent a bullet through the leg of a small boy and their injured honor was satisfied.

TO THE PUBLIC.

THE PAIN KILLER manufactured by PERRY DAVIS & SON has won for itself a reputation unsurpassed in medical preparations. The universality of its use, and its adaptability to the wants of the people, and for the Pain-Killer is a novel, interesting, and surprising feature in the history of this medicine. The Pain-Killer is now regularly sold in large and steadily increasing quantities, not only to private families in every Province in British America, but to Brazil, Buenos Ayres, Paraguay, Peru, Chili, and other South American States, to the Sandwich Islands, to China and other West India Islands; to England and Continental Europe; to Mozambique, Madagascar, Zanzibar, and other African ports; to Australia, and Calcutta, Rangoon and other places in India. It has also been sent to China, and we doubt if there is any foreign port or any island in Africa or Asia, which is frequented by American and European missionaries or traders, or travellers, into which the Pain-Killer has not been introduced.

The world of the virtues is in the proof of this remarkable medicine. It is not only the best thing ever known, as everybody will confess, for bruises, cuts, burns, &c., but for dysentery or diarrhœa, or any sort of bowel complaint, it is a remedy unsurpassed for efficiency and rapidity of action. In the great cities of British India and the West Indies Island, and other hot climates, it has become the standard medicine for all such complaints, as well as dyspepsia, liver complaint, and other hundred diseases. For sample and testimonials, address, and thereafter deal with, if has been proved by the most standard and considerable trade and testimony, to be an invaluable medicine. The proprietors are in possession of letters from persons of the highest character and responsibilities, testifying in strongest terms to the cures effected and the satisfactory results produced in an endless variety of cases by the use of Davis' Pain Killer. That the Pain-Killer is the only article of a proprietary claim for it to simply proved by the unparalleled popularity it has attained. It is a cure and a reliable remedy. It is sold in almost every country in the world, and is becoming more and more popular every year. Its healing properties have been fully tested all over the world and it need only be known to be prized.

TUESDAY, JULY 1, 1873.

Execution of Smith.

Albert H. Smith, the Westfield murderer, was executed according to sentence, in the Springfield, Mass., jail at 10:45 on Friday morning, the 27th inst. The following is a brief recapitulation of the circumstances of the murder: Smith was a switchman on the Boston and Albany Railroad, and a lover of Jennie Bates, a young lady who lived near the depot at Westfield where he was employed. After some months of intimacy, however, Miss Bates met Charles D. Sackett, a man about 40 years old, and of considerable property. She manifested a preference for Sackett and this made Smith furiously jealous. He frequently threatened the lives of the pair, and one night, meeting them returning together from the theatre, he fired the seven bullets of a Smith & Wesson revolver at them, one ball fatally wounding Sackett, and Miss Bates was struck by three others. Smith was arrested, tried, condemned, and sentenced to be hung as above.

Before the execution took place and while Smith was on the gallows he made a brief speech in which he claimed that he had no intention of murdering Sackett and called attention to a previous opportunity he had to commit the crime if he had been disposed. His hearing upon the scaffold was easy, and perfectly unmoved with bravado.

DOMESTIC ECONOMY.

Have you called your Parlors, Library, Bedroom, Chamber, Hall, Vestibule, and other carpets at home to be thoroughly cleaned with Dust, Moth, Grease or Coal Smut, or do the pieces have to be taken up, beaten and carted out, and apparently as much as possible cleaned in the hands of the manufacturer.

THIS GREAT DESIDERATUM

is obtained without removing the carpet from the floor, or depriving the owner of all the furniture from the rooms, as is commonly the case by other renovating establishments, which have to do those things to suit appearances. The old system of carpet beating and cleaning will be very soon a thing of the past, and should be discarded, as it is a fact that only the dust which has lodged on the surface of the carpet can be removed by such methods, and not the smoke, soot and other foreign matter which has penetrated the fabric.

Circular and references of the many families for whom we have cleaned carpets can be had at the office, No. 13 Thames Street, Newport.

Iron in the Blood

PERUVIAN AN IRON TONIC SYRUP

MAKES THE WEAK STRONG.

The Peruvian Syrup, a Protected Solution of the Protoxide of Iron, is so combined as to have the character of an aliment, as easily digested and assimilated with the blood as the simplest food. It increases the blood, and cures "a thousand ills," simply by Toning up, Invigorating and Vitalizing the System. The enriched and vitalized blood permeates every part of the body, repairing damages and waste, searching out morbid secretions, and leaving nothing for disease to feed upon.

This is the secret of the wonderful success of this remedy in curing Dyspepsia, Liver Complaint, Dropsy, Chronic Diarrhœa, Boils, Nervous Affections, Chills and Fevers, Humors, Loss of Constitutional Vigor, Diseases of the Kidneys and Bladder, Female Complaints, *and all diseases originating in a bad state of the blood, or accompanied by debility or a low state of the system. Being free from Alcohol, in any form, its energizing effects are not followed by corresponding reaction, but are permanent, infusing strength, vigor, and new life into all parts of the system, and building up an Iron Constitution.*

Thousands have been changed by the use of this remedy, from weak, sickly, suffering creatures, to strong, healthy, and happy men and women; and invalids cannot reasonably hesitate to give it a trial.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY,

SOLICITOR OF PATENTS,

For Inventions, Trade Marks, or Designs,

No. 76 State-st., opp. Kilby-st., Boston.

A TTENTION EXTENSIVE PRACTICE of twenty years, continues to secure patents in the United States; also in Great Britain, France and other foreign countries. Everything relating to inventions, and models and papers for Patents, executed on reasonable terms, with despatch. Research made to determine the validity and utility of Patents, and Inventions, and legal and other advice rendered in all matters relating thereto. A portion of the claimed improvement patented through, by remitting one dollar. Assignments recorded in Washington.

No Agency in the United States possesses superior facilities for obtaining Patents or investigating the probabilities of inventions.

All necessity of a journey to Washington to prosecute a Patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse."

CHARLES MASON, Commissioner of Patents.

"I have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy one than Mr. Eddy, who is capable of putting the application in a form to secure the Patent quickly and also of conducting the Patent Office."

EDM. BURKE, Late Commissioner of Patents.

"Mr. R. H. Eddy has conducted more than THIRTY applications for Patents, having been successful in almost every case. Such unmistakable proof of great talent and ability on his part, leads me to recommend any inventor to apply to him to procure their Patents, as they may be sure of having the most faithful attention bestowed on their case, and at very reasonable charges."

Diamond Spectacles.

TRADE MARK

THESE SPECTACLES are manufactured from "MINUTE CRYSTAL PEBBLES" melted together, and are called Diamond on account of their hardness and brilliancy. It is well known that these Lenses come from the Island of Scotch Pebbles are very difficult to be very, because of their pearlizing hold. Having been tested with the telescope, the diamond lenses have been found to admit fifteen per cent. more heat rays than any other pebble. They are ground with great accuracy, and free from chromatic and aspherical aberration, and possess the qualities of vision not before attained in spectacles.

Manufactured by the Spencer Optical Manufacturing Company, New York. For sale by responsible agents in every city in the Union. H. A. HEATH & CO., Jewelers and Opticians, sole Agents for Newport, R. I., from whom they can only be obtained. None genuine unless stamped with our trade mark. may 17
